

Lenovo IdeaPad Flex 5i Chromebook Plus (14", 7)

Live life with flexibility.

Take your life anywhere you go with the versatile IdeaPad Flex 5i Chromebook Plus powered by the 13th Gen Intel® Core™ processors. This unique 2-in-1 convertible Chromebook Plus is packed with exclusive features that unleash the creativity inside you. The 14" screen, stylus pen support and a larger touchpad lets you do more, watch more and play more at home or outside.

Why you should buy Lenovo IdeaPad Flex 5i Chromebook Plus (14", 7)

More power gets more done

With the 13th Gen Intel® Core™ processors plus 8 GB memory and up to 512 GB storage, edit Google Docs, photos, and videos, while watching your favorite shows in Full-HD on a 1080p display. Plus, more power means faster gameplay.* View more rows and scroll less through your spreadsheet on the taller 16:10 aspect ratio display with thin bezels on all sides.

A better type and touch experience

Be as productive as possible with a centered touchpad that aligns with the space key, making for a better typing experience. Select and edit content with greater precision on the larger 120 x 75 touchpad. When the sun sets or you're in a dark room, the backlit keyboard keeps you on track. Click, zoom, and drag more intuitively with the touchscreen.

Privacy and peace of mind

The IdeaPad Flex 5i Chromebook Plus is designed with your privacy at heart. Unlock quickly and securely with the fingerprint reader. Chromebook Plus has a 1080p webcam and built-in AI-powered video call tools that enhance clarity and lighting, to look your best on any video call app. And block the camera after a video call with the physical shutter to ensure what's personal stays personal.

The tools you need to make magic

Quickly create standout photos and videos with Adobe apps, and remove unwanted distractions with AI-powered Google Photos Magic Eraser on your 2-in-1 Chromebook Plus. You can swipe, tap, and scroll to your heart's content. Switch to tent mode and sketch with the optional Lenovo USI Pen to grasp that creative thought.

* Based on load times and frame rates observed during representative testing of Minecraft and NVIDIA® GeForce NOW™ on Chromebook and Chromebook Plus devices.
