Hover support adds control, quick brush switching keeps you in rhythm, and tablet mode offers a comfortable angle for long creative sessions.

Copilot+ PC, built in

Powered by Snapdragon® X2 Plus processor, Copilot+ PC brings next-gen AI to everyday tasks. Recall helps you instantly retrace steps to find files, sites, or chats, Cocreator turns words and sketches into images, and Live Captions translates audio from 40+ languages so you can create, learn, and connect more easily.

¹ All battery life claims are approximate to the half hour and based on two methods of testing: MobileMark® 2030 battery life benchmark @ 250 nits brightness and continuous 1080p video playback @ 150 nits brightness on the latest update of Windows 11. Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use. Rapid Charge is only available on the 60Whr version battery.

² Height is calculated using T2 measurements and should be considered 'as thin as'.
